# Lift/sliding Door PremiDoor 70

KÖMMERLING®

The suitable Door for
your world.

Doors and windows form part of your living space and your own personal living environment. You should therefore give your full attention to your decision for the right door system.

Link beween house and garden.

Link beween house and garden Where does it start outside, where does it stop inside – and vice versa? With the lift/sliding doors this distinction is de liberate ly blurred. You create the most beautiful links between your home and the airy green of your garden. Irre spectively of the weather you gain space for living and life – without transition.
PremiDoor is a genuine premium product. Its appeal lies in its lean design look, its timeless character, and its technical features: max imum values for thermal and sound insulation, stability, and weather tight ness are just as nat ural as reliable functioning with high user comfort. A great many design variants and unusual measurements – with sash sizes up to 3.0 m wide and 2.5 m high – provide the best conditions for an individual architecture.

▶ Reliable functionality, great handling ease.

▶ Smooth and quiet running of the sliding sashes.

▶ Extraordinary measurements: sash size up to 3.0 m wide and 2.5 m high.

▶ Profiles of lead free rigid PVC stabilised with eco friendly calcium and zinc.

▶ Outstanding thermal insulation. Threshold with thermal break for optimal isothermal properties.
